

VAISHNAVI N DHOBALÉ

Full-Stack Web Developer | MERN Stack

+91 7499718585 • vaishnavidhobale5@gmail.com • LinkedIn : [vaishnavidhobale](#) • Portfolio: [vaishnavidhobale](#)
• [Github : vaishnavidhobale](#) • Add: 17/3, Daulat Plaza, Lohegaon, Pune, Maharastra 411047.

Summary

Recently trained full-stack developer with hands-on experience building web applications through projects. Completed a comprehensive full-stack web development course at Masai School, gaining solid skills in the MERN stack (MongoDB, Express.js, React, Node.js). Passionate about building efficient, user-friendly applications and eager to apply my skills in a professional setting.

Experience

Leads4Needs | [Certificate](#)

Noida

Full Stack Developer

02/2022 - 04/2022

Completed a 3-month internship at Leads4Needs, where I developed resume templates using HTML, CSS, and JavaScript in the first month, and built a full-stack website using the MERN stack in the following two months.

Education & Certifications

Masai

04/2023 - 10/2023

Full-Stack Web Developer | MERN Stack

Bachelor In Computer Engineering

09/2022 - 11/2024

Diploma In Computer Engineering

11/2018 - 11/2021

Technical skills

- HTML
- CSS
- JavaScript
- React Js
- Redux
- Bootstrap
- Node Js
- Express Js
- MongoDB
- C++
- Chakra UI
- Tailwind CSS
- Version Control
- AWS
- REST APIs
- JSON

Projects

[DefencePost](#) | [Repo](#)

DefencePost delivers unparalleled study materials, offering the most comprehensive and effective notes to empower CDS students on their path to success. **This project was my individual initiative, where I developed and structured all aspects to meet the unique needs of CDS aspirants.**

Tech Stacks : JavaScript React, Chakra UI, Express JS, MongoDB.

- Optimized data handling, which reduced loading times by 30%, enhancing the user experience and performance for all users.
- Successfully implemented responsive design for seamless mobile and desktop access, allowing over 60% of mobile users to access the site effectively
- Created a more stable backend architecture using the MVC structure, which handled data more efficiently, reduced downtime, and supported more concurrent users.
- Built an authentication feature, boosting data security and providing a seamless login experience for all users.
- Delivered the project individually within a tight two-month timeline, successfully meeting all feature and functionality requirements.

Buyify | Repo

Cloned the Amazon website to replicate its core functionalities, including homepage design, product listing, user authentication, and responsive UI, using modern web development technologies. Implemented a user-friendly interface and optimized the design for seamless navigation and performance.

Tech Stack : JavaScript React, Chakra UI, Express JS, MongoDB.

- Cloned the Amazon website as part of a group project, **where I was responsible for designing and managing the backend code.**
- Achieved smooth and efficient API performance, supporting fast response times for product browsing and checkout processes.
- Designed a scalable database structure to handle large datasets, ensuring the platform can support multiple products and users without performance issues.
- Implemented secure user authentication, enhancing data protection and providing a reliable login experience.
- Completed and deployed the Amazon website clone project within a 10-day timeline, efficiently managing tasks and ensuring timely delivery.

RC Travels | Repo

Developed a responsive travel agency website, RC Travels, using React, PHP, and MySQL, showcasing travel packages, features, and customer feedback to provide a user-friendly experience for exploring travel solution.

Tech Stack : React, Tailwind CSS, PHP, MySQL

- Worked on the RC Travels project as part of a group, **responsible for creating a responsive design using React to ensure a seamless user experience across devices.**
- Developed and implemented dynamic pages to showcase travel packages, features, and customer feedback for an engaging platform.
- Focused on user-friendly design and mobile responsiveness, ensuring seamless browsing and a consistent experience across devices.
